

Project Structure

Date	17 November 2022
Team ID	PNT2022TMID46686
Project Name	Developing a Flight Delay Prediction Using Machine Learning

The project folder contains the following folders

- ✓ flights.csv is the dataset used for training our model.
- ✓ flight delay analysis.ipynb is the python file where the ML algorithm is applied to the dataset for testing and training. Finally, the model is saved for future use.
- ✓ flight.pkl is the saved model used in the flask to predict the output instantly for the given inputs.
- ✓ To build a Flask Application, save HTML pages in the templates folder and a python script app.py for server-side scripting.
